## Who should take this course?

The lure of the deep. There's something exciting and mysterious about exploring deeper dive sites while scuba diving. Sometimes it's a wreck that attracts you below 18 metres/60 feet, and on wall dives it may be a giant fan or sponge. Whatever it is, to scuba dive with confidence at depths down to 40 metres/130 feet, you should take the PADI Deep Diver Specialty course.

If you've earned the PADI Adventure Diver rating or higher, and you're at least 15 years old, you can enroll in the Deep Diver course.

**Ask us how to schedule your next dive course!**

# deep diver

## What will you learn?

Your training starts by reviewing reasons for deep diving and how important it is to know your personal limits. During four deep dives with your instructor, you'll go over:

- Specialized deep diving equipment.
- Deep dive planning, buddy contact procedures and buoyancy control.
- Managing your gas supply, dealing with gas narcosis and safety considerations.

The first dive of this PADI Specialty Diver course may credit as an Adventure Dive toward your Advanced Open Water Diver certification – ask your instructor about earning credit.

## Supporting Materials

Get a PADI Deep Diver Crew-Pak that includes your manual and video to start your training today. Besides your basic scuba equipment, you'll also need dive computer, dive light and underwater slate for training. Consult your PADI Instructor for additional gear recommendations that may be appropriate for local deep diving conditions.
